

Fresh  Start

In fast-paced food service environments, food safety is critical to prevent the spread of germs. Not to mention all of the plates, utensils, and different items that get passed from customer to customer or even among employees.

Microbe Free Solutions wants to add peace of mind to not only your customers, but employees as well. Our products are NSF qualified for food safety.

- EPA registered and approved for use against SARS-CoV-2, the virus that causes COVID-19
- Kills 99.9% of bacteria, germs, mold, mildew, and viruses.
- Approved for both hard and soft surfaces
- In use, completely safe for adults, children, and pets
- Environmentally friendly, VOC and CFC free, & Hypergreen™
- Proven track record of antimicrobial success for over 30 years.

We Are The Industry Standard for Sanitization. Our products sanitizes on all surfaces, whether you're on the line in the kitchen, or using the cushions in the dining room. Our easy to application methods allow for a variety of uses across your establishment. Providing a healthier living environment for your employees and customers.

Easy to Apply. Simply spray on to ensure coverage over vast areas of hard to reach surfaces and high tough areas.

Environmentally Safe. Our Hypergreen™ products do not release harmful chemicals into the earth, air, or ozone, making this product safe for you and the environment.

Microbe Free Solutions products are here to help your business and your customers stay safe. While reinforcing a positive image of your business to the public. Our products will create a healthy dining and drinking environment for your customers, setting yourself apart in a highly competitive industry.
