

Fresh Start

Every day, harmful microbes threaten our learning environments, seemingly unnoticed until it's too late. Children and adults alike are constantly sharing items touched by countless others. Sanitize with Microbe Free Solutions' line of industry leading products with a long, proven history of success.

- EPA registered and approved for use against SARS-CoV-2, the virus that causes COVID-19
- Kills 99.9% of bacteria, germs, mold, mildew, and viruses
- Approved for both hard and soft surfaces
- In use, completely safe for adults, children, and pets
- Environmentally friendly, VOC and CFC free, & Hypergreen™
- Proven track record of antimicrobial success for over 30 years

We Are The Industry Standard for Sanitization. Our Hypergreen™ technology sanitizes all areas and provides an answer to harmful microbes lingering on high touch surfaces your students, teachers, and staff come into contact with all day. Our easy application can be applied to schools and universities of any size to safely eliminate germs, bacteria, mold, mildew, and viruses that linger on desktops, door handles, lockers, water fountains, and common area tables and furniture. Microbe Free Solutions can keep everyone safe and in attendance by providing state of the art sanitization methods.

Easy to Apply. Simply spray on to ensure coverage over vast areas of hard to reach surfaces and high touch areas.

Environmentally Safe. Our Hypergreen™ products do not release harmful chemicals into the earth, air, or ozone, making this product safe for you and the environment.

Microbe Free Solutions products are here to help keep your student body, teachers, and staff safe and provide a happier and healthier learning environment.
